

## **NANO MAGNETICS TO SHOWCASE PRODUCTS AT THREE INTERNATIONAL TRADE SHOWS**

(TORONTO, 18 January 2010) – Look out for Nano Magnetics this winter as it prepares to showcase its latest Nanodots magnetic micro constructors – the best selling item of 2009. Covering three major markets in just two weeks, the Company is especially proud to debut the product in Europe, which is where the original constructor application of Nanodots was born and developed. The company welcomes trade visitors, media members and the public to visit its modern “magnetic lab” booth and demo the product at the following venues:

- Jan.31 - Feb.2: Canadian Toy and Hobby Fair (Toronto, Canada). Hall 6, booth #574
- Feb.7-11: Spring Fair 2010 (Birmingham, UK). Hall 5, booth #5J57
- Feb.14-17. Toy Fair 2010 (New York). Level 1, educational toys section, booth #5938

Come and experience the fun of discovering geometry, magnetism and science as you play with Nanodots.
